TUESDAY, FEBRUARY, 21, 1893

Only 11 more days of Harrison.

Secretary to be Hoke Smith owes it to the country to explain by what sort of hocus-pocus he acquired that front name of his.

Judge John Schofield, of Marshall, Ill., who declined the office of Chief Justice of the United States, tendered him by President Cleveland, on the grounds that he did not feel himself competent, died last week.

Tom Blount, a burly negro, was lynched at Chattanooga Tuesday night for assaulting Mrs. Mary A. Moore, a widow fifty-five years of age, who resides on Helm street, near Gillespie, keeping house for her unmarried son.

The ex-queen of Hawaii pronounces her name Lee-lee-wak-lanny. That may have been all right in the days when the lady could compel her subjects to say what she dictated, but now plain "Lili" is good enough for her.—Lexington Leader.

Jas. C. Edwards, editor of the Elkton Times, has gone to Washington as Secretary to Senator Lindsay at a handsome salary. Jim is one of the brightest fellows on the press of Kentucky and all of the boys will congratulate him upon being selected for this responsible and lucrative position.

The following cabinet slate is official as far as it goes:

State—Walter G. Greham, Illinois. Treasury—John G. Carlisle, Ky. War—Daniel S. Lamont, N. Y. Postoffice—Wilson S. Bissell, N. Y. Interior—Hoke Smith, Georgia. Agriculture—J. Sterling Morton, Neb. Justice and Navy not settled, with chances in favor of dark horses.

In the conflict between the Republicans and Populists in Kansas last week the Republicans were victorious and now hold the Representatives' Hall by agreement. The army was controlled by Republican officers who refused to obey the orders of the Populist Governor and a back-down was obliged to follow his belittling proclamation. Peace reigns and no blood was shed.

The Wyoming Legislature has adjourned without electing a Senator, which is virtually a triumph for the Democrats, as Gov. Osborne, who is a Democrat, will now have to appoint. He is expected to name either A. L. New or J. C. Thompson. This will give the Democrats 44 Senators of their own, without the help of the Populists, and they still have a chance to secure another in Montana.

Bert Wing, who killed his wife, Miriam Eaves Wing, last November, was given a life sentence at Louisville last week. His neck was saved by Judge Eaves, father of the murdered woman, who asked the jury to give him a life sentence instead of the gallows, a plea of guilty being entered. The result was a great surprise, as it was believed Judge Eaves would prosecute Wing to the extent of the law.

In a lake town in Michigan a girl has recovered \$500 damages from a steamboat company, for naming a boat after her without asking her permission, and they must return the boat. She took offense at a marine item stating that "Kittie Marshall, having been thoroughly scrubbed, painted, refitted, with canopied stern and new boilers, will hereafter serve as a mail carrier and poke her pretty nose into the lake business for all she is worth.—Courier-Journal.

Auditor Norman has issued a circular letter to the sheriffs notifying them that an act has passed the General Assembly allowing all delinquents whose property was sold prior to 1893, for State and county taxes, to redeem the same at any time before January 1st, 1894, by paying the taxes with cost of sale and 8 per cent. per annum interest on the amount of the taxes and costs until paid. All State taxes due prior to 1879 are relinquished under the revenue act of 1892.

Geo. L. Willis, the Times correspondent, makes the following predictions concerning federal appointments for Kentucky: Albert S. Willis, Commissioner of Internal Revenue; C. J. Bronston, Second Controller of the Treasury; Capt. James Blackburn, United States Marshal; G. M. Adams, Pension Agent; S. B. Buckner, Minister to Austria; J. T. Shelby, Collector of Lexington district; Geo. Alexander, Collector of the Louisville District; J. P. Dempsey, of Madisonville, Collector of the Owensboro District.

A Georgia editor, according to the Atlanta Constitution, says that a chew of tobacco taken by a Georgia Statesman changed the complexion of Mr. Cleveland's cabinet. Does Mr. Hoke Smith chew?—Louisville Commercial.

No; it was the other Georgia man, Mr. Cleveland was thinking of putting a cabinet member who expected to be elected, based on the basis of the "Cleveland" cartoon, and write on back your name and address plainly.

Any person purchasing one 50-cent bottle of our PLANTATION REMEDIES is entitled to the Memphis "SCIMITAR" weekly for 1893. Mail in front of cartoon and write on back your name and address plainly.

Fay Mills' Great Work.

Fay Mills' revival at Nashville has assumed proportions never equalled in that city, even in Sam Jones' big meetings. The American of yesterday says 3,000 men were serious at the Sunday service. In comparing Jones and Mills that paper has this to say:

"Sam Jones in his best day never faced a finer gathering of men in Nashville. The comparison is by way of contrast and emphasis, not invidiously made.

Both these men are great evangelists, gifted with herculean spiritual strength and power over their fellow-men. But they differ from each other. As was said in these columns last week, their methods are widely at variance in the details, but their varying methods lead to the same end. They have both succeeded in this city in drawing men's minds for a brief space to a contemplation of the profound mysteries of Christ's religion of love.

In every way the two men can be contrasted they differ, except that they are both laboring to this end. In physical appearance, voice, bearing and oratory they are as widely apart as any two men in public life. But they have a common aim.

It is useless to deny to either also late success in these efforts. Nashville was aroused to white heat by Sam Jones more than once; it is in that condition at the present moment, and it is perfectly correct to make a statement to the effect that at this moment the man of greatest concentrated influence in this community is the Rev. Mr. Mills.

And what are his methods? He is certainly not an orator. His sermons are limited in a surprisingly pronounced way. His discourses contain rarely more than twenty minutes, and unaided by other means he would never have been able to bring to the surface in this city such an extraordinary spiritual manifestation.

Since coming to Nashville he has acquired a list of men who have come within his influence. He has a book for every church. These books contain hundreds of names. The men who are designated in them will not be lost sight of when the evangelist has gone. The pastors of the churches of Nashville will know who they are and where they are and they will be nursed carefully and tenderly and many men will undoubtedly hereafter be regular and sincere worshippers in these churches who have not been so heretofore.

Cards have been freely distributed at the meetings bearing the following language:

NASHVILLE, 1893.

I desire henceforth to lead a Christian life.

Name.....

Residence.....

Church or pastor preferred.....

These cards, signed, have been carefully gathered and will be retained.

It is by these methodical agencies so many men and women, of every grade in the life of the community have been reached.

And at the outset seventy-five ushers, all men known to have a certain influence in their surroundings, were chosen. Doorkeepers were selected with the same thought uppermost. They have all been so many roadways leading into various localities and households and different walks.

There has been method, and these continuous enormous gatherings and innumerable confessions of faith are the results.

Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed it has a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out of this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Little Things That Tell.
It is the little things that tell—little brothers for instance, who hide away in the parlor while sister entertains her beau, etc. Dr. Pierce's Pleasant Pellets are little things that tell. They tell on the liver and tone up the system. So small and yet so effective, they are rapidly supplanting the old style pill. An infallible remedy for Sick and Bilious Headaches, Biliousness and Constipation. Put up in vials, convenient to carry. Their use attended with no discomfort.

JULIAN JOTTINGS.

Our little village is once more the proud possessor of a general merchandise store, headed by that genial and well-deserving gentleman, Mr. J. D. Gardner, who invites the public generally to come and inspect his well supplied and complete stock.

Our friend Mr. S. F. Embury is in our midst this week. The enthusiasm of Sam Jones' converts is insignificant when compared to his of Dr. Keely. Mrs. Jack Barnes, who has been visiting relatives and friends in this vicinity, returned to her home near Howell this morning.

Mr. Clarence Sallee is seen very frequently to hitch his horse to a post near the home of a very pretty and attractive little girl, in this neighborhood.

This weather it seems is giving the farmers a chance to get their tobacco off.

Miss Lula Graves' school is progressing nicely and we hope that Miss G. will be among us another year.

Mr. J. R. Caudle has a nice lot of mules he brought from the Rock City last week. He expects to bore with a bigger auger this year than last.

We are sorry to learn that our friend W. A. White has been confined to his room since last Saturday morning, with something like La Grippe. We hope to see him up again in a few days.

APPLE PIE.

Squills, Tar, Sweet Gum and Honey. These old reliable household remedies skillfully combined form Plantation Cough Syrup, a certain and pleasant remedy for Coughs, Colds, etc. Sold and guaranteed satisfactory by Blakemore Bros., Hopkinsville, and F. W. Owen, Kelly, Ky.

A visit to the World's Fair.

At Chicago will be incomplete without "cooling off" somewhere in the lake regions of Wisconsin, Northern Michigan and Minnesota.

All the best summer resorts in the Northwest can be reached in a few hours ride from Chicago via the Chicago, Milwaukee & St. Paul Railway and the Milwaukee & Northern R. R.

Literary Notes.

The January number of Romance offers not only a feast to the lover of fascinating stories, but a peculiarly interesting field for the student of international fiction. Eight of its fifteen stories are from the pens of noted Spanish writers. They are selected primarily with a view to their general interest, but are still of so marked a flavor as to reveal clearly and in the most pleasing manner a different spirit from that which controls literature of the same class in other countries.

Besides this extraordinary presentation of Spanish fiction, the number contains a special New Year story, two thrilling narratives in the best style of French art, several charming original American sketches, and two intensely dramatic stories by Julia Schayer and Barton Allen. The whole forms a number of uncommon strength and variety. This magazine is issued by Romance Publishing Company, 411 Astor Place, New York, at 25 cents a number; subscription, \$2.50 a year.

Wun Lung.

This is a queer name of a Chinese laundryman in Hartford, but he has probably two lungs like the most of us. Some crying babies seem to have a dozen. Lungs should be sound, or the voice will have a weakly sound. Dr. Pierce's Golden Medical Discovery makes strong lungs, drives the cough away, generates good blood, tones the nerves, builds up the human wreck and makes "another man of him." Nightcrawls, blood-spitting, short breath, bronchitis, asthma, and all alarming fore-runners of Consumption, are positively cured by his unsurpassable remedy. If taken in time, Consumption itself can be baffled.

DEATHS.

ALEXANDER.—A two-year-old child of Robert L. Alexander of Macedonia, died of measles on the 9th inst.

WOODSON.—Jacob Woodson, a former resident of this county, died at his home near Clarksville, last week, aged about 80 years.

CORDELL.—Frank Cordell died at his home in Earlfield Friday of consumption after a long illness. Deceased was raised near Paducah, in this county, and was 42 years old.

THOMPSON.—The remains of Miss Bettie Thompson, who died at Hopkinsville yesterday, were brought to the home of her parents in this city last night at nine o'clock. She had consumption and some days since started South with the hope that a sojourn in a milder climate might be of some benefit to her. On reaching Hopkinsville she became suddenly weaker, and concluded to stop awhile with relations living in that city who might recuperate her strength sufficiently to return her way to her Southern destination. But as the days passed she grew weaker, instead of better, until death as above stated. The deceased was a daughter of Mr. Jesse Thompson, who is engaged in railroad business at this place. The funeral took place to-day at 2 o'clock from the Thompson residence on lower Church street, Rev. J. W. Stagg, conducting the obsequies. The interment was at Fairview Cemetery—Bowling Green Herald.

COLORED.

MOORE.—Granville Moore died two miles east of the city Friday of fever, aged 24 years.

PARISH.—A two-month-old child of Edna Parish died in the city Saturday.

Hopkinsville's Death Rate.

The KENTUCKIAN in the habit of publishing a complete list of deaths in the city, and in the county as far as they can be obtained. An examination of the list of deaths for Hopkinsville for 1892 shows the following results:

There were during the year 99 deaths out of a population of 8,000.

This shows a mortality rate of a little more than 12 to the 1,000 population.

This is low but even this high rate is due to the great mortality among colored children.

The mortality rate among the 3,500 colored people was 18 to the 1,000.

The white deaths amounted to only 36 out of a population of 4,500.

The white mortality rate was therefore only 8 to the 1,000, far below the average.

BEVERLY.

Beverly, Ky. Feb. 18.

A few letters from our small town may be interesting to your many readers of your valuable paper. We seldom hear from it in your columns; but it is none the less wide awake to its best interests both in moral and intellectual advance.

Beverly Academy is being conducted by Prof. Danell and his accomplished sister, Miss Lizzie Danell. We hope to be successful in securing them for our future teachers. By their kind and earnest manner they have won the love of their pupils and the highest esteem of the patrons.

Prayer meetings among friends and neighbors are held every Friday night. The good Sam Jones did in the revival at Hopkinsville is the theme of conversation.

Mr. Elmo Stager, a drummer from a Paducah drug house, has been spending several days with relatives.

Miss Viola Fleming is progressing very nicely in her new enterprise of merchandising.

L. B. Cayce has rented and moved to the home lately occupied by Geo. Major.

Mr. T. H. Mayor, of Owensboro, is spending several days with his son John Major.

The K. P. Military Branch.

We are gratified to note the revival of interest in the military branch of the Pythian order. Two years ago a division was organized in this city composed of the best material of Evergreen Lodge. For some time this division flourished and in interest increased with every meeting. At Bowling Green they made a highly creditable appearance and won second prize, a beautiful silk banner, in a competitive drill. For unaccountable reasons after their triumphal return from the Park City, the members lost interest to some extent and the division almost ceased to be. Recently, however, through the energy of the officers and remaining members and pride in the order there has been an awakening which promises a brilliant future for the local Division. The old members have become aroused to the importance of the work. Realizing the benefits accruing to the Lodge from the military adjunct, they are now attending drills regularly and evincing the old time enthusiasm in the Division. New members are being added at every meeting and the roster will soon number 40 Knights. The commissioned officers for the present year are: Thomas Rodman, Capt. C. H. Tandy, Lieut. Bailey, Walter, Herald.

DEPARTMENT OF AGRICULTURE.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its possessing in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance. Syrup of Figs is for sale by all druggists in 5c and 25c bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

NOTICE!

Look out that you don't get the grippe; this is fine weather for it, and extra precautions should be taken to prevent it. Keep the feet warm, use an Electropneum about two nights a week and you will be O. K. If you already have grippe, or have never fully recovered from the attack of last winter, the Electropneum is the best remedy known. It brings oxygen into the system and tones and builds up all the organs of the body. DUBOIS & WEBB, Room 10, Norton Block, Fourth & Jefferson, Louisville, Ky., can tell you all about Electropneum.
